

**MEMORANDUM FOR: Director of Central Intelligence 3 May 1957**

**SUBJECT : High Level Meeting on Project AQUATONE**

1. As explained to you on 2 May, the paper to be handed by you to the President at the May 6th meeting has been cut down to a brief status report. A copy is attached hereto and copies have been sent to the Air Force. (Tab A)

2. It is understood that the following topics which are now excluded from the formal paper will be raised by you, probably in this order, for discussion at the meeting:

- a. Alternative Lower Priority Targets.
- b. The RAINBOW Program.
- c. Maintenance of a Non-Military Overflight Capability.
- d. Proposed Modification of Operational Concept.

I have drafted a separate paper on these four topics indicating the line I believe we should take on each. Copies of this paper have gone to the Air Force who are fully aware of our views. This paper is also attached hereto. (Tab B)

3. I hardly need remind you that the third of these topics is the sensitive one because there is not full agreement between the Air Force and ourselves on this matter. I have drafted the paragraph on this topic with great care in an attempt to emphasize that the difference between the Air Force and ourselves is a difference in our estimate of what our own political authorities would prefer. I urge you to emphasize that our disagreement is of this nature, since we have no desire to maintain an overflight capability unless we stand a better chance than the Air Force of being allowed to use it, while the Air Force has no desire to stop us if they are convinced that this is the case. It follows that instead of having a debate with the Air Force about the views of the political authorities it is simpler to ask what they are.

4. I know that it is difficult to control the course of such a meeting as the one planned for the 6th but I would urge you to make a major effort

at least to raise all four of these topics so that we can try to get, if not clean-cut decisions, at least some feeling for the President's views. I repeat, the Air Force is well aware that these issues will be raised.

5. I have prepared still a third piece of paper which contains a number of arguments I hope you will have an opportunity to use in favor of letting us operate. (Tab C)
